

Children's Comfort, Rest and Relaxation Policy

Policy Number: 1
Date Updated: 23/10/18

Rationale and Policy Considerations

The education and care service understands it has a duty of care to ensure that children are provided with a nurturing environment that provides for children's needs for comfort, rest and relaxation. Children's health and wellbeing is fundamental to their development. Children need to be supported to feel a sense of belonging and comfort within the education and care environment. Experiences that promote awareness of care and safety for themselves and others will assist children to become competent, independent, and develop valuable life skills.

The Education and Care Services National Law (WA) Act 2012 requires that the Approved Provider/Nominated Supervisor take reasonable care to protect children's health and safety. The SIDS Foundation provides guidelines for children's safety whilst sleeping, and relevant health authorities provide information on children's comfort and wellbeing.

Legislation and Government Requirements

- Education and Care Services National Law (WA) Act 2012.
- Education and Care Services National Regulations 2012.
- Federal and State Health and Occupational Health & Safety Legislation

Needs

Children's

A safe and caring environment in which their needs for comfort, rest and relaxation are met. Ability to choose appropriate clothing for comfort and participation in activities and experiences.

Families'

Their child's health, wellbeing, comfort and safety is assured and cultural needs recognised and addressed. Young children's routines for sleep and rest which are in place at home are carried through to the education and care service whenever possible.

Educators

Children are to be dressed appropriately for play and activities. Families understand children's clothing needs and support policy implementation. A comfortable, safe, sleep environment for children which meets each child's individual needs; information on latest research and best practices that reduce the risk of SUDI (Sudden Unexpected Death in Infancy); strategies to monitor care during sleep and rest times.

Management

Educators to role model appropriate dress standards. Ensure all equipment provided meets Australian Standards. Ensure educators have up to date information on best practice safety precautions for children's sleep, rest and comfort. Provide information sessions and printed material (in relevant languages to the service community) on reducing the risks of SUDI and other pertinent topics.

Scope

This policy is written for children, families, staff and visitors of Lifestreamers Childcare.

Policy Statement

Educators will consult with families in regard to their child's clothing needs for play experiences both indoors and outdoors and will ensure each child's individual needs are met. Educators will consider children's comfort and safety at all times. School age children will be reminded to adjust their own clothing as necessary.

The staff will talk to children about appropriate clothing for different weather conditions, clothing for sun protection and different fashions and traditional clothing from around the world. Programs will include opportunity for dress-ups as well as allowing time for children to attempt to dress themselves and put their own shoes and socks on. Staff will be patient with new attempts and provide assistance before frustration sets in.

We believe that rest is an important part of the child's day and encourage all children to have a quiet period where they can relax and rejuvenate. This part of the day allows the children to prepare themselves for the afternoon activities, and by resting, they are better able to utilise the experiences we provide

Educators will consult with families at all times in regard to their child's sleeping/rest patterns and will develop procedures to ensure each child's individual needs are met. Sleep procedures and sleep equipment will take into account current health and safety advice from recognised health and safety authorities. There will be a comfortable place and experiences that promote rest and relaxation provided for children at all times.

Policy Principles

Clothing

- Educators will discuss appropriate dress with children in relation to:
 - current weather conditions and differing seasons
 - indoor or outdoor play
 - different activities.
- Children will be required to wear clothing that will provide protection from harmful UV rays in the warmer months. Children are required to wear shirts that cover their shoulders and neck. Therefore singlets and summer tops with the back missing will be changed for a t-shirt or collared shirt upon arrival at the centre. (Refer to Sun Protection Policy.)
- Hats and sunscreen must be worn whenever the staff and children are engaged in outdoor activities. Legionnaire, bucket or broad brim hats that cover the ears, neck, face and nose need to be provided by families and worn. Most skin cancers appear on the head and neck and are linked to lifetime exposure to UV rays.
- Families and children will be consulted about individual clothing needs, preferences and cultural requirements, and will make every effort to address these issues within the service's requirements for children's health and safety.
- Children will be encouraged to communicate their needs for comfort and assistance, and develop independence and competence in their own personal hygiene, care and safety.
- Educators will ensure that young children are appropriately dressed for their age, mobility, experiences and activities within the service
- Sleeping babies will wear clothes to keep them comfortably warm, but not hot and educators will ensure sleeping babies heads and faces are uncovered to prevent the baby from overheating, in line with SIDS recommendations.
- Educators will encourage children's independence in dressing and undressing and allow sufficient time for children to practice and master these skills within the daily routines of the service.
- The service will supply sufficient spare clothing to ensure children are kept comfortable and dry at all times. Spare clothing that goes home with children will need to be washed and returned for future use.
- Children should arrive at the centre in comfortable footwear that is suitable should we decide to go on an impromptu walking excursion.
- Children will be given the choice as to whether they want to wear their shoes or to take them off while they are at the centre.
- Soiled/wet clothing will not be rinsed or washed at the service as this can spread germs. Soiled clothing will be placed in a plastic bag, tied firmly to prevent leakage, and returned to the family when they arrive to collect their child.

- Where children have special support needs or are pre-school age, families are required to provide at least one change of clothing for their child in the child's bag. Children in nappies or toilet training should be provided with more than one change of clothing.
- Parents are asked to label each piece of their child's clothing and shoes, to avoid loss or any mix-up in clothing.
- The service will provide protective clothing to be worn during messy activities.
- Families are encouraged to not send their children to daycare in good clothes. While we make every effort to wear aprons during messy play, we will not be liable for stained clothes as accidents do occur and paint always seems to find the smallest gap!
- Educators will role model appropriate clothing at all times.
- Dress-up clothes will be of a suitable size and variety to meet the needs of all children involved in the experience. They will be washed at the end of the program ready for the next use.

Rest and Relaxation

- Educators will provide an opportunity for children to sleep/rest or relax within the service's daily routine.
- Educators will encourage children to sleep in order to meet their individual developmental needs.
- Children will not be forced to sleep at any time. Children are not forced to sleep but are expected to have a rest on their beds while the other children go to sleep. Quiet activities will be made available for children to experience once the other children are asleep.
- Sleep/rest times will be regarded as a positive, pleasant experience within the service and educators will make every effort to provide a relaxing and comfortable sleep environment for all children. Educators will ensure children are dressed appropriately and closely monitored (within hearing range and regularly observed) whilst sleeping.
- Babies younger than 6 months old should not be sleeping on their tummy.
- No wrapping baby as soon as they start showing signs that they can begin to roll.
- Children sleeping will be checked every ten minutes.
- Jumpers will be taken off for rest time so that the children do not get too hot and will have something warm to put on when they wake up. Any clothing with hoods or cords will also be removed for sleep.
- Each child's bedding will be washed at least once a week or after soiling in line with Health, Hygiene and Infection Control Policy. Those who share a bed have their sheets washed in between each child's use.
- Comforters and/or security toys may be brought in for sleep/rest periods; however such items must not impact on the safety of children whilst sleeping.
- Dummies will have their cords removed before sleep time. If a dummy falls out of a baby's mouth during sleep it should not be reinserted.
- Educators will ensure their knowledge and understanding of recommendations from Red Nose is current and applicable. Where possible staff will implement recommendations from Red Nose within the service's sleep/rest routines. Other factors such as age of the child, cultural needs and requests from families will also be considered when tailoring individual sleeping patterns.
- Each room will evaluate their sleep and rest procedure every year and make any necessary changes.
- School age children have access to comfortable spaces away from the main activity areas, where they may relax or undertake quiet activities either alone or with their friends.
- Educators will be aware of children's needs for relaxation and will encourage children that are tired after a day at school or over-excited after vigorous activity, to calm themselves by reading, listening quietly to music or quietly chatting with their friends.
- Children will be consulted on the rules and routines that relate to the comfort of individuals and the group.
